### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance: Hosoi (Fig. 1 element 10, Col. 12 line 12, Col. 4 line 47, and Col. 10 line 57), Ishikawa (Col. 7 Line 48) and Nakagawa (Fig. 4b, Col. 5 Line 45, Col. 6 Line 17, Col. 6 Line 62, Col. 7 Line 25 and 45) teach an optometric apparatus with a pair of right and left lens chamber, with a test window and a rotating disk. However none of the prior art alone or in combination teaches or suggests a red green test setup for an optometric apparatus with a pair of right and left lens chamber, with a test window, aperture and a rotating disk. Wherein the red green test, a red optotype and a green optotype are simultaneously presented to the examinee's eye. And the apparatus further comprises a control means for drivingly controlling the rotating disk in response to the signal from the instruction means to place the green filter in the test window for a first predetermined time and then place the aperture in the test window for a second predetermined time while the red and green optotype are simultaneously being presented to the examinee's eye. Hence for the above mentioned reasons the case is allowable.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
